DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 5-7.

Allowable Subject Matter

Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's arguments dated 12/19/05 are considered persuasive. Huang is not considered prior art. Upon further search the Examiner has determined that prior art fails to teach "implanting phosphor as impurities so as to surround the region implanted with As" in combination with "the high concentration As on the surface of the bit line contact junction" and "the distance between the gate electrode region and the capacitor region can be smaller than twice the thickness of a spacer to be formed later". Consequently, claim 1 contains allowable subject matter. Claims 2-4 depend from claim 1 and act only to further narrow allowable subject matter.

Art Unit: 2813

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
